IEEE Email: ronizeitouni@ieee.org | LinkedIn: <https://www.linkedin.com/in/roni-zeitouni/>

Address: Sawfar, Mount Lebanon

OBJECTIVE

A motivated Computer and Communications Engineer with hands-on experience in IT support, networking, and cybersecurity operations. Experienced in troubleshooting hardware, software, and network issues across Windows and Linux environments. Strong problem-solving and communication skills with a passion for delivering efficient technical support and maintaining reliable system performance.

WORK EXPERIENCE

SOC Analyst (Internship – Cyber Security) Midis Group – i4 Solutions - Monitored security events using Microsoft Sentinel (SIEM) - Analyzed Windows and Linux logs with KQL - Investigated alerts (e.g., SQL injection, brute force, suspicious logins) - Correlated events to identify potential threats - Assisted in incident response and containment - Developed and tuned detection rules	Doha, Qatar Oct 2025 - Mar 2026
IT (Internship – in Information Technology) Cumberland - Provided technical support and troubleshooting for users across Windows-based environments - Configured networks, routers, and internet connectivity for office operations - Installed and maintained camera systems, printers, and workstation devices - Diagnosed hardware and software issues and ensured timely resolution - Assisted users with system configuration, software installation, and connectivity issues	Dbayeh, Lebanon Apr 2025 - Jul 2025
Internet Service Provider (Own Sectors) - Provided internet services and technical support for approximately 200 clients - Configured and maintained network infrastructure and wireless connectivity - Diagnosed and resolved network, hardware, and connectivity issues Monitored network performance and optimized stability for users - Assisted clients remotely with troubleshooting and technical support	Charoun, Lebanon 2022 - 2024

TECHNICAL SKILLS

Networking Protocols & Secure Network Design Network Security Technologies Network Configuration & Troubleshooting Access and Connectivity Controls Windows & Linux Support VPN & Remote Support (AnyDesk) SIEM Monitoring (Microsoft Sentinel) Log Analysis (Windows & Linux) KQL (Kusto Query Language) Threat Management & Security Monitoring	Programming Languages: Python, Java - HTML5, CSS3, JavaScript, Bootstrap, React AI & API Integration Fundamentals MikroTik Router Configuration & Troubleshooting (Winbox) Vulnerability Assessment Linux Environments (Kali, Ubuntu) Incident Response & Containment Microsoft Office (Word, Excel, PowerPoint) Hardware Maintenance Help Desk & Customer Technical Support Technical Troubleshooting

CERTIFICATES

- BS in Computer & Communication Engineering (American University of Science and Technology) (Aug 2025)
- Certificate for participating in Medieval Robotics Championship (IEEE robotic main event) (2025)
- Semicolon Ethical hacking OCB051 (1st place Winner) (2024)
- Cisco Course Completion of CCNAv7 (2024)
- Introduction to Cybersecurity and Cybersecurity Essentials (Feb 2022)
- Cyber Security Workshop by EduBolt (2022)
- Certificate in HTML5 and CSS3 (Oct 2021)
- 2nd runner team Hult Prize Certificate (2020)

EDUCATION

American University of Science & Technology
BS in Computer & Communications Engineering

Achrafieh, Lebanon
2025

Sawfar Official High School
General Sciences

Sawfar, Lebanon
2019

PERSONAL PROJECTS

- Created an Android / iOS application currently being launched, hosted on personal servers (May 2026) for data storage and my APIs (using React Native, node.js...)
- Developed basic Python scripts for log analysis and security event detection (2026)
- Performed vulnerability assessment and basic penetration testing using Kali Linux tools (Nmap, basic scanning) (2026)
- Conducted brute force and DoS attack simulations in a virtual lab environment and analyzed detection methods (2026)
- Designed and implemented a SIEM lab using Microsoft Sentinel to monitor and analyze security logs from Windows and Linux systems (2026)
- Invented a Smart Helmet with advanced Features and AR HUD display for **Senior Project** including AI-assistant (google API) (May 2025)
- Created a GUI for PCM / DPCM Simulation for Deterministic and Audio Signals Matlab (May 2025)
- Invented a Gyroscope Controlled Camera Stick (Arduino) (Jan 2025)
- Created a Modulator GUI (AM FM PM LSSB/USSB DSB-LC/SC) using MatLab (Jan 2025)
- Created Hand-off simulation in wireless communication Matlab (May 2025)
- Created a home automation system using Raspberry Pi (2024)
- Created a 3 based Hospital Network on Packet Tracer (2024)
- Developing certain programs using Java and C programming languages (2022) (Parking System/Scientific Calculator)

SOFT SKILLS

- Strong time management and ability to handle multiple tasks efficiently
- Detail oriented with strong analytical thinking
- Fast learner with adaptability to new technologies and environments
- Ability to work independently and collaboratively within teams
- Excellent communication and interpersonal skills
- Strong problem solving and troubleshooting mindset
- Results-driven with the ability to meet deadlines under pressure
- Customer focused with strong understanding of client requirements
- Strong organizational and process improvement abilities

LANGUAGES

- **Arabic** (Native)
- **English** (Native)
